Serene Sheikhalard | Full-Stack Web Developer | US Citizen | Open to Remote (US Time Zones) | serenesheikh23@gmail.com | LinkedIn **|** Portfolio

SUMMARY

Remote-ready full-stack developer (US Citizen) with end-to-end ownership of production features — from React architecture to Laravel backend and admin dashboard design.

Shipped a live institutional CMS platform (500+ weekly visitors) and built a full-stack e-commerce app with JWT auth, cloud deployment, and CI/CD.

Skilled cross-functional collaborator working asynchronously with technical and non-technical stakeholders across time zones.

CORE COMPETENCIES

JavaScript (ES6+), TypeScript, React (Hooks, Context API, React 19), Redux Toolkit, React Router, HTML5, CSS3, Tailwind CSS, Bootstrap, Blade, Node.js, Express, PHP, Laravel 13, RESTful APIs, JWT Authentication, RBAC (Spatie), WebSockets (Laravel Reverb), MVC Architecture, Payment Webhook Architecture (HMAC, Idempotency), PostgreSQL, MySQL, SQL, Eloquent ORM, Database Migrations & Seeding, CRUD Design, Docker, Nginx, CI/CD (GitHub Actions), Git, Railway, Vite, Composer, Code Review, CORS & Environment Configuration

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Trainee Program) — Mad Fox (Althaalab Almaker) *May 2025 – Mar 2026*

- Improved page load speed by ~30% by refactoring front-end templates and optimizing database queries.
- Reduced recurring bugs by 40% by introducing systematic Git workflows and peer code review.
- Designed and built an internal admin system supporting 50+ CRUD operations with zero data-integrity incidents.

PROJECTS

Marketly — Full-Stack SaaS Platform (Personal)

- Architected a full-stack platform with Laravel 13 API + React 19 + TypeScript, implementing RBAC via Spatie and real-time features with Laravel Reverb WebSockets.
- Built a bilingual (EN/AR) interface with full RTL support and a dynamic custom form builder for manual order intake, using Redux Toolkit for state management.
- Architected a secure, webhook-ready payment callback layer with HMAC signature verification and idempotency handling, prepped for Stripe integration.
- Configured Docker + Nginx deployment with GitHub Actions CI/CD, deployed on Railway.

drama.gov.sy — Institutional CMS Platform (Live, Mad Fox)

- Built a fully dynamic CMS with a decoupled admin dashboard, enabling non-technical staff to independently update all site content without touching code.
- Implemented role-based access for internal staff, media upload/optimization pipelines, and content version management.

Serves 500+ weekly public visitors. Tech: Laravel, Blade, Tailwind CSS. Live: https://drama.gov.sy

Full-Stack E-Commerce Platform (Personal): Built and deployed a full-stack app with React (Vite)/Express, JWT authentication, PostgreSQL-backed data, and Docker/Railpack deployment on Railway.

Other Projects: light-promo.com — promotional site supporting 200+ daily visits (Laravel, Bootstrap, Live: https://light-promo.com); Contest Game — real-time interactive game platform scaling to 150 concurrent users (JavaScript, Laravel); Masarat Bus System — CRUD-based route management system tracking 10+ routes (Laravel, MySQL).

EDUCATION

Bachelor of Information Technology — International University of Science and Technology, Damascus, Syria (Graduated June 2026)

CERTIFICATIONS

Full-Stack Web Development (Laravel) — Mad Fox / Althaalab Almaker (Feb 2026); Master Full-Stack Web Development with Laravel & PHP — Board Infinity / Coursera (July 2026) | Verify

ONGOING R&D

Actively migrating a React application to Next.js 15 (App Router) to explore SSR, API routes, and performance optimization.
