SUMMARY

Junior full-stack developer with hands-on Laravel experience across the full development lifecycle, from database design to production deployment. Shipped a live institutional platform serving 500+ weekly visitors and improved page load speed by 30% through query and template optimization. Expanding into React and Node.js for modern JavaScript-based full-stack development. Comfortable across frontend and back-end layers, collaborating in cross-functional teams, and troubleshooting end-to-end.

SKILLS

Front-End: HTML5, CSS3, JavaScript (ES6+), React, Responsive Design, Bootstrap, Tailwind CSS, Blade (component-based UI)
Back-End: PHP, Laravel, Node.js, Eloquent ORM, MVC Architecture, RESTful API Design & Integration
Databases: MySQL, SQL, Database Migrations & Seeding, CRUD Design
Tools & Practices: Git & Version Control, Composer, Vite, Debugging & Performance Optimization, Code Review, Clean & Structured Coding, Team Collaboration
Languages: Arabic (Native), English (Fluent)

EXPERIENCE

Front-End & Full-Stack Developer Trainee — Mad Fox (Althaalab Almaker), Damascus, Syria *(May 2025 – Mar 2026)*

- Delivered 3 client full-stack web applications on schedule, building responsive Laravel + Tailwind CSS interfaces and integrating backend logic.
- Improved page load speed by approximately 30% by refactoring Blade templates and optimizing database queries.
- Reduced recurring bugs by 40% by introducing systematic Git workflows and peer code reviews.
- Built and maintained an internal system used by 5+ team members, developing Laravel controllers, models, and Blade components.
- Executed 50+ CRUD operations across MySQL tables with zero data integrity issues, following Laravel migration and seeding best practices.
- Cut manual handoff time by 2 hours per week by integrating frontend and backend components with consistent Git workflows.

PROJECTS

drama.gov.sy — *Syrian Institute of Drama (Live, Mad Fox)*

- Built an institutional website handling 500+ weekly visitors. Tech: Laravel, Blade, Tailwind CSS.

light-promo.com — *Promotional Site (Live, Freelance)*

- Independently developed a promotional website supporting 200+ daily visits. Tech: Laravel, Bootstrap.

Contest Game — *Interactive Game Platform (Mad Fox)*

- Engineered real-time interactive game logic and session handling, scaling reliably to 150 concurrent users. Tech: JavaScript, Laravel (Session Management).

Masarat Bus System — *Route Management System (Graduation Project)*

- Built a CRUD-based bus route system tracking 10+ routes and schedules. Tech: Laravel, MySQL.

E-Commerce Platform — *Full-Stack Web App (Personal Project)*

- Built a full-stack e-commerce application with product listings, cart, and order flow. Tech: React, Node.js, Vite.

EDUCATION

Bachelor of Information Technology
International University of Science and Technology, Damascus, Syria — Graduated June 2026
