PROFESSIONAL SUMMARY

Full-stack software developer building web applications and client websites with Laravel, React, and Next.js. Deliver features end to end: React front ends, Laravel APIs, admin dashboards, and Docker and CI/CD deployment. Experienced in role-based access control, secure payment webhooks, and real-time updates. Build and review code with AI-assisted tools (Claude, Claude Code) while owning architecture and quality.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Front End: React 19, Next.js, TypeScript, Redux Toolkit, React Router, Tailwind CSS, Bootstrap, Blade, Vite

Back End: Laravel 13, Node.js, REST APIs, Laravel Sanctum, JWT and NextAuth.js, RBAC, Spatie Permission, WebSockets, Laravel Reverb, Eloquent ORM, Prisma, Payment Webhooks (HMAC, Idempotency), Redis, MVC

Databases: MySQL, SQLite, Turso (libSQL), Query Optimization, Migrations and Seeding

Testing: PHPUnit, Vitest

DevOps and Tools: Docker, Nginx, CI/CD, GitHub Actions, Git, Code Review, Railway

AI-Assisted Development: Claude, Claude Code, DeepSeek, OpenCode; Claude Academy: Claude 101, AI Fluency

Productivity Tools: Notion (databases, workflows, Notion AI); Notion Academy: Essentials, AI, Advanced, Workflows

EXPERIENCE

Full-Stack Developer (Trainee Program) | Mad Fox (Althaalab Almaker) | May 2025 – Mar 2026

- Refactored Laravel Blade templates to improve front-end rendering speed.
- Optimized MySQL queries to speed up data retrieval and improve application responsiveness.
- Standardized team Git workflows to reduce recurring bugs.
- Introduced a peer code review process to catch defects before release and raise code quality.
- Developed an internal admin system in Laravel and MySQL with full CRUD operations.

PROJECTS

Marketly | Laravel, React, TypeScript, Docker (Launching soon) — Built a full-stack marketplace with user, admin, and moderator roles (Spatie RBAC), VIP tiers, deposits and withdrawals, a Partner API, and real-time updates via Laravel Reverb. Supports payments through Binance Pay, CWallet, USDT (BEP-20), and regional wallets (Syriatel Cash, Sham Cash), with idempotent webhooks verified using HMAC-SHA256 and HMAC-SHA512. Wrote PHPUnit tests and set up Docker, GitHub Actions CI/CD, and Railway deployment.

Glow Pop | React, Redux Toolkit, Laravel, Sanctum (Launching soon) — Built the React front end and Laravel API for an e-commerce platform with product search and filtering, cart, wishlist, checkout, Sham Cash payments, Arabic and English support, and an admin dashboard for products, orders, inventory, and users. Secured the API with Laravel Sanctum token authentication and RBAC.

Code Craft (Personal Agency, Live) | Next.js, TypeScript, Prisma, Turso — Built and launched an agency website with an admin CMS secured by JWT role-based authentication (NextAuth.js), 12 data models, 56 API handlers, contact-form email delivery via Resend, and Vitest API tests.

ronaris-taxi.de | HTML, CSS, JavaScript — Built a German, English, and Arabic website for a Bonn taxi company with a JavaScript ride-request form, phone and WhatsApp contact options, and a responsive layout.

hpmtdistribution.com | HTML, CSS, JavaScript — Built an English and French website for a Canadian HVAC distributor with light and dark modes, a product catalog, customer testimonials, and a contact section.

drama.gov.sy | Laravel, Blade, Tailwind CSS — Built an institutional CMS for a government website at Mad Fox, with a decoupled admin dashboard and role-based access control for content management.

light-promo.com (Freelance) | Laravel, Bootstrap — Independently designed, built, and launched a promotional website for a client, from concept to live deployment.

EDUCATION

BS Information Technology, International University of Science and Technology, Damascus, Syria | Graduated June 2026

CERTIFICATIONS

Master Full-Stack Web Development with Laravel and PHP, Board Infinity / Coursera | July 2026 | Verify
