SUMMARY

Full-stack engineer (Laravel/PHP, React/Next.js) who has shipped a government website and three live web applications, including a payments-enabled store backed by 66 automated tests and an agency site scoring 98+ on mobile PageSpeed. Seeking an entry-level software engineer role; open to relocation.

EDUCATION

BS Information Technology — International University of Science and Technology Jun 2026

SKILLS

Programming:	PHP, TypeScript, JavaScript (ES6+), SQL, HTML/CSS
Frontend:	React 19, Next.js, Redux Toolkit, React Router, Tailwind CSS, Blade, Vite, i18next
Backend:	Laravel 13, Node.js, Sanctum, NextAuth.js, Eloquent ORM, Prisma, Redis
Data & Tests:	MySQL, Turso, PHPUnit (66 test cases), Vitest (8 tests)
DevOps:	Docker, Nginx, GitHub Actions, Vercel, Railway, Git
Practices:	OOP, MVC, REST/JSON APIs, RBAC, WebSockets, Postman, responsive design, Figma-to-code, SEO, CI/CD

EXPERIENCE

Freelance Full-Stack Developer — Marketly, Ismail Cosmetics (client projects) Apr 2026 – Present

- Gathered client requirements, handled change requests, trained staff on the admin dashboard and supported users.
- Debugged live issues via log monitoring; configured production secrets and environment variables; migrated live data.
- Added validation, CSRF, rate limiting and password hashing; optimized slow queries; wrote Postman tests, READMEs.

Front-End Developer (Trainee) — Mad Fox May 2025 – Mar 2026

- Built and deployed an end-to-end Laravel system: Blade/Tailwind UI, controllers, Eloquent models, full CRUD.
- Built the all-Arabic (RTL) public website and admin dashboard behind drama.gov.sy, live at a government site, covering 10+ sections: news, articles, events, services, strategic goals, decrees, statistics, surveys and custom pages.
- Independently built and deployed light-promo.com from concept to production, with its full admin dashboard.
- Reviewed peer pull requests before merge; fixed bugs and improved performance across the platform.

PROJECTS

Code Craft | Next.js 15, TypeScript, Prisma, Turso, NextAuth, Vercel codecraftdigitalstudio.vercel.app

- Shipped my own agency website with an admin CMS: 56 API handlers, 12 Prisma models, 36 pages and 8 Vitest tests.
- Reached Lighthouse 98 mobile / 99 desktop performance, 100 SEO; cut mobile LCP 5.3s → 2.4s (55%) via WebP.

Marketly | Laravel 13, React 19, TypeScript, MySQL, Redis, Docker marketlly.store

- Launched a multi-role (user/admin/moderator) digital services store selling subscriptions and digital products, with VIP tiers, deposits/withdrawals, 86 API routes and a token-authenticated partner API.
- Designed a pluggable payment-gateway architecture (PaymentGatewayInterface) and built 3 gateways (Binance Pay, USDT BEP-20, and a regional mobile wallet) with idempotent webhook handlers.
- Wrote 66 PHPUnit test cases in 11 feature files (1,233 lines): auth, orders, VIP logic, webhooks, partner API.
- Dockerized the stack (php-fpm, nginx, MySQL, Redis, Reverb) with GitHub Actions CI; code-split the React SPA.

Ismail Cosmetics | Laravel, React 19, Redux Toolkit, i18next, Docker ismailcosmetics.com

- Built a bilingual (Arabic/English, RTL) cosmetics e-commerce platform: 110 API routes, 24 Eloquent models, 30 migrations and a 38-page React SPA with Redux Toolkit and i18next locale switching.
- Integrated regional mobile-wallet payments server-side with a webhook handler; Dockerized (php-fpm + nginx).

CERTIFICATION & LANGUAGES

Master Full-Stack Web Development with Laravel and PHP — Board Infinity / Coursera | Verify Jul 2026

Spoken Languages — Arabic (Native), English (Native)
