SERENE SHEIKHALARD

Full-Stack Software Engineer | U.S. Citizen

Irving, TX | (817) 241-6292 | serenesheikh23@gmail.com

serene-sheikhalard-portfolio.vercel.app | linkedin.com/in/serene-sheikhalard | github.com/serenesheikh23

SUMMARY

Full-stack software engineer who designs, tests and ships production web applications across the full software development life cycle. Strongest in Laravel/PHP and React/Next.js, with object-oriented design, role-based access, payment-gateway integrations, automated testing, and Docker with GitHub Actions CI. Delivered three live applications and a government CMS. Seeking an entry-level software engineer role in the Dallas–Fort Worth area.

EDUCATION

BS Information Technology — International University of Science and Technology June 2026

SKILLS

Languages:	PHP, TypeScript, JavaScript (ES6+), SQL, HTML/CSS
Frontend:	React 19, Next.js, Redux Toolkit, React Router, Tailwind CSS, Blade, Vite, i18next
Backend:	Laravel 13, Node.js, REST APIs, Sanctum, NextAuth.js, RBAC, WebSockets, Eloquent, Prisma, Redis
Data & Tests:	MySQL, Turso, PHPUnit (66 test cases), Vitest (8 tests)
DevOps:	Docker, Nginx, GitHub Actions, Vercel, Railway, Git
Practices:	OOP, MVC, SDLC, algorithms, REST/JSON APIs, Postman, responsive design, Figma-to-code, SEO, CI/CD
Spoken:	Arabic (Native), English (Native)

EXPERIENCE

Freelance Full-Stack Developer — Marketly, Ismail Cosmetics, Code Craft Apr 2026 – Present

- Gathered client requirements, handled change requests, trained staff on the admin dashboard, supported users.
- Debugged live issues via log monitoring; configured production secrets and environment variables; migrated live data.
- Added validation, CSRF, rate limiting, password hashing; optimized slow queries; Postman API tests; wrote READMEs.

Front-End Developer (Trainee) — Mad Fox May 2025 – Mar 2026

- Built and deployed a complete Laravel web-based system end to end: Blade frontend (HTML, CSS, JavaScript, Tailwind), Laravel controllers and Eloquent models, full database CRUD.
- Delivered the all-Arabic (RTL) institutional CMS behind drama.gov.sy — live in production at a government site — with a full admin dashboard covering every section and content field.
- Independently built and launched light-promo.com from concept to live deployment, with its full admin dashboard.
- Reviewed peer PRs before merge; fixed bugs and improved system performance across the platform.

PROJECTS

Code Craft | Next.js 15, TypeScript, Prisma, Turso, NextAuth, Vercel codeeecrafttt.vercel.app

- Built and launched an agency site with admin CMS: 56 API handlers, 12 Prisma models, 36 pages, 8 Vitest tests.
- Lighthouse 98 mobile / 99 desktop performance, 100 SEO; mobile LCP 5.3s → 2.4s (55%) via WebP.

Marketly | Laravel 13, React 19, TypeScript, MySQL, Redis, Docker marketlly.store

- Built and launched a multi-role (user/admin/moderator) digital services store with 86 API routes, VIP tiers, deposits/withdrawals, and a token-authenticated partner API.
- Designed a pluggable payment-gateway architecture (PaymentGatewayInterface) and built 3 gateways (Binance Pay, USDT BEP-20, and a regional mobile wallet) with idempotent webhook handlers.
- 66 PHPUnit test cases across 11 feature files (1,233 lines): auth, orders, VIP logic, webhooks, partner API.
- Dockerized stack (php-fpm, nginx, MySQL, Redis, Reverb WebSockets) with GitHub Actions CI; code-split React SPA.

Ismail Cosmetics | Laravel, React 19, Redux Toolkit, i18next, Docker ismailcosmetics.com

- Built a bilingual (Arabic/English, RTL) cosmetics e-commerce platform: 110 API routes, 24 Eloquent models, 30 migrations, 38-page React SPA with Redux Toolkit and i18next locale switching.
- Integrated regional mobile-wallet payments (ShamCash) server-side with a webhook handler; Dockerized (php-fpm + nginx), Vercel config.

CERTIFICATION

Master Full-Stack Web Development with Laravel and PHP — Board Infinity / Coursera | Verify July 2026
